

Innovations in Global Health Professions Education

3RD ANNUAL CONFERENCE

INNOVATIVE
STRATEGIES FOR
DEVELOPING THE
FUTURE HEALTHCARE
WORKFORCE

April 5-7, 2017

Waldorf Astoria Shanghai
on the Bund Hotel
Shanghai, China

WALDORF ASTORIA SHANGHAI ON THE BUND HOTEL

Shanghai, China

The Waldorf Astoria Shanghai on the Bund is located on a stately street of colonial-era buildings and offers a prime location for views of Shanghai's glittering skyline and the majestic Huangpu River. The hotel occupies a stunning six-storey Baroque revival building which was once home to the legendary Shanghai Club. Founded in 1861, this was one of the city's most exclusive gentlemen's clubs and the ultimate expression of Shanghai high society.

With the addition of the Waldorf Astoria Tower, a newly-built annex that rises high above the Huangpu to give even more spectacular views of the city, today the Waldorf Astoria Shanghai is considered one of China's most luxurious hotels, offering a timeless blend of heritage and modern elegance.

About IGHPE

Innovations in Global Health Professions Education (IGHPE) is a globally interconnected forum for the presentation and discussion of innovative concepts in all areas of health professions education, supported by Weill Cornell Medicine-Qatar (WCM-Q).

We invite nurses, pharmacists, physicians and other healthcare professionals to contribute to the platform. Beyond an impact on scholarship in global health professions education, publications of the platform ultimately aim to deliver real, measurable improvements in healthcare outcomes for patients.

“*The ultimate Mission of Innovations in Global Health Professions Education is to transform learning worldwide to improve health.*”

– Joint statement by IGHPE Editorial Board

Strategic Goals

- Advance the science of learning in the health professions
- Promote the implementation of innovation for sustainable improvement
- Inspire and nurture communities of cross-cultural learners

Our Events

As an academic, open-access publishing platform focused on transforming learning worldwide to improve health, IGHPE is committed to holding global and regional workshops and conferences to help build an active community of healthcare and education professionals who are inspired to lead transformative initiatives. Our events bring healthcare professionals together who drive and influence improvements in healthcare.

Through IGHPE, leaders in medicine, nursing, pharmacy, allied healthcare specialties and management can share ideas central to transforming learning and improving patient care: How can global innovations be made to work locally? How does the environmental context impact innovation? Are innovations in professional examinations, program accreditation, and professional certification global, regional or local issues?

All participants at IGHPE events are part of the discussion and are encouraged to contribute as moderators, speakers, panelists and active audience members on any given topic. Events enable participants and speakers to meet, connect and socialize so that ideas can be shared both formally and informally. Event proceedings also provide opportunities for participants' ideas to be published in the form of videos, podcasts, articles and blogs. All of these materials are accessible free of charge globally via the IGHPE website and associated digital channels.

Editorial Board

EDITORS-IN-CHIEF

Javaid I. SHEIKH, Professor and Dean, Weill Cornell Medicine–Qatar, Qatar

Victor J. DZAU, President, National Academy of Medicine, USA

ASSOCIATE EDITORS

Thurayya ARAYSSI, Associate Professor and Senior Associate Dean for Medical Education and Continuing Professional Development, Weill Cornell Medicine–Qatar, Qatar

Robert K. CRONE, Professor and Vice Dean for Clinical and Faculty Affairs, Weill Cornell Medicine–Qatar, Qatar

EDITORIAL BOARD MEMBERS

Elizabeth ARMSTRONG, Clinical Professor in Pediatrics, Harvard Medical School; Director of Harvard Macy Institute, USA

Humayun “Hank” CHAUDHRY, President and CEO, Federation of State Medical Boards (FSMB), USA

Kim CRITCHLEY, Deputy Minister of Health and Wellness, Province of Prince Edward Island, Canada

Richard HAWKINS, Vice President, Medical Education Programs, American Medical Association (AMA), USA

Eric S. HOLMBOE, Senior Vice President for Milestones Development and Evaluation, Accreditation Council for Graduate Medical Education (ACGME), USA

Robert K. KAMEI, Associate Provost (Education), National University of Singapore (NUS), Singapore

Yang KE, Executive Vice President, Peking University, China

Donald E. MELNICK, President, National Board of Medical Examiners (NBME), USA

Lois Margaret NORA, President and CEO, American Board of Medical Specialties (ABMS), USA

John J. NORCINI Jr., President and CEO, Foundation for Advancement of International Medical Education and Research (FAIMER), USA

Andrew PADMOS, CEO, Royal College of Physicians and Surgeons, Canada

Janette S. SAMAAN, Founding Senior Director, Global Health Learning Opportunities (GHLO), Association of American Medical Colleges (AAMC), USA

Kelley M. SKEFF, George DeForest Barnett Professor, Department of Internal Medicine, Stanford University, USA

George E. THIBAUT, President, The Josiah Macy Jr. Foundation, USA

IGHPE Welcome

Innovative Strategies for Developing the Future Healthcare Workforce

Welcome to the third annual conference hosted by Innovations in Global Health Professions Education (IGHPE). The conference focuses on the ever more pressing need to be able to deliver effective, integrated, accessible and affordable care across the world's diverse populations.

The event is designed to stimulate discussion and action on a number of key healthcare issues, with special focus on China. These include:

- Developing a modern workforce to address the growing need of a burgeoning and aging population with chronic, non-communicable diseases
- The need for primary care in both rural and urban settings as well as the need for team-based provision of care
- The need to standardize education and training at the undergraduate, graduate and continuing professional development levels to ensure quality, safety and accountability
- To highlight innovations in both education and healthcare delivery locally, regionally, and internationally.

Attendees at this conference are leaders and stakeholders in health professions education, including educators, administrators, deans, program directors, and others from China, Asia, North America and the Middle East who are prepared to share their vision and expertise to transform the health professions learning experience to build the healthcare workforce.

All are invited to discuss new paradigms, practices and digital solutions. Our aims for this conference are to frame a vision, and stimulate creative thinking and collaborations that address the demand for effective, integrated, 21st century health professions education.

This conference at the Waldorf Astoria Shanghai on the Bund provides an opportunity for participants to explore novel ideas, meet new friends and colleagues, and establish collaborative partnerships to drive innovation in health professions education, with the ultimate aim of improving patient care.

Acknowledgments

We offer our sincere thanks to Qatar Foundation for their support for the IGHPE 2017 Conference: *Innovative Strategies for Developing the Future Healthcare Workforce*.

We are also extremely grateful for the support of our co-hosts and local institutions who share our common interest in stimulating discussions and collaborations that advance the fields of education and research in the healthcare professional community. We would like to thank:

- Peking University (PKU)
- Peking University Health Science Center (PUHSC)
- Children's Hospital of Shanghai (CHS)
- China Europe International Business School (CEIBS)
- Health Human Resource Development Center, National Health and Family Planning Commission (HHRDC/NHFPC)
- Peking Union Medical College & School of Public Health (PUMC-SPH)
- Shanghai Medical College of Fudan University (SHMC)
- Shanghai University of Traditional Chinese Medicine (SHUTCM)
- Sun Yat-sen University Global Health Institute (SGHI)

Program

APRIL
05

Wednesday, 2017

- 14:00 - 18:30** **Conference Check-in Desk**
Delegates to pick up conference bag and materials
Lobby, Waldorf Astoria Shanghai on the Bund
- 18:30 - 20:30** **Welcome Reception**
Long Bar, Waldorf Astoria Shanghai on the Bund

APRIL
06

Thursday, 2017

- 07:30** **Registration and Information Desk**
Shanghai Club Ballroom, Waldorf Astoria Shanghai on the Bund (Level 2)
- 08:30** **Opening Remarks**
Javaid I. SHEIKH (WCM-Q, Qatar)
Victor DZAU (NAM, USA)
Yang KE (PKU, China)
Jianguang XU (SHUTCM, SATCM & CMA, China)
- 09:00** **Overview & Introduction to IGHP**
Thurayya ARAYSSI (WCM-Q, Qatar) and Robert K. CRONE (WCM-Q, Qatar)

Session 1: Workforce Development Priorities and Strategies for the Health System

Co-hosted by Human Resource Development Center,
National Health and Family Planning Commission

Session 1A: National Priorities and Strategies

Moderated by Robert K. CRONE (WCM-Q, Qatar) and Junhua ZHANG (HHRDC/NHFPC, China)

- 09:30** **Keynote Speaker: Junhua ZHANG (HHRDC/NHFPC, China)**
China's Health Professional Development Plan (2016-2020)
- 09:45** **Panel Discussion - 10 minutes each**
Ducksun AHN (KUMC, South Korea)
Chak Sing LAU (HKU & HKAM, Hong Kong)
Ivy NG (SingHealth, Singapore)
Ching-Hui LOH (VAC & NDMC, Taiwan ROC)
- 10:25** **Facilitated Panel Discussion**
- 11:05 - 11:25** **Break**

Session 1B: The Need for Standards in Training & Education

Moderated by Representative from NHFPC (NHFPC, China) and Robert K. CRONE (WCM-Q, Qatar)

- 11:25** **Keynote Speaker: Lois Margaret NORA (ABMS, USA)**
Improving Health Care through Professional Self-Regulation

- 11:40** **Panel Discussion - 10 minutes each**
Susan DAY (ACGME-I, USA)
Zuoqin YAN (SHMC, China)
- 12:00** **Facilitated Panel Discussion**
- 12:30 - 13:45** **Networking Lunch**
Diplomats Hall, Waldorf Astoria Shanghai on the Bund (Level 2)
-

**Session 2: The Future of Primary Care:
Innovative Strategies for Healthcare Professions Education**
Co-hosted by Peking University Health Science Center
& Shanghai University of Traditional Chinese Medicine

Session 2A: The Need for Team-Based Primary Care in Rural and Urban Settings
Moderated by Thurayya ARAYSSI (WCM-Q, Qatar) and Mengfeng LI (SYSU, China)

- 13:45** **Keynote Speaker: Chunhua CHI (PUHSC & PKUFH, China)**
How Important is Primary care within the Chinese
healthcare delivery system?
- 14:00** **Keynote Speaker: Yan HU (SHMC & CCNN, China)**
Role of Nurse in Primary Healthcare in China
- 14:15** **Panel Discussion - 10 minutes each**
Jianguang XU (SHUTCM, SATCM & CMA, China)
Zhigang PAN (SHMC, China)
Liping DUAN (PUHSC & PKUTH, China)
- 14:45** **Facilitated Panel Discussion**
- 15:25 - 15:45** **Break**
- Session 2B: The Relationship Between Global Health and Primary Care**
Moderated by Thurayya ARAYSSI (WCM-Q, Qatar) and Therese HESKETH (UCL & ZJU, UK)
- 15:45** **Keynote Speaker: Yuanli LIU (PUMC-SPH, China)**
Primary care in China: Capacity, incentives, and accountability
- 16:00** **Panel Discussion - 10 minutes each**
Dong XU (SGHI, China)
Yuanzhi GUAN (PUMC, China)
Gengsheng HE (SHMC, China)
- 16:30** **Facilitated Panel Discussion**
- 17:00** **Summary of the Day**
Moderated by Thurayya ARAYSSI (WCM-Q, Qatar), Robert K. CRONE
(WCM-Q, Qatar), Therese HESKETH (UCL & ZJU, UK), Dong XU (SGHI, China)
- 17:30** **End of Conference Day 2**
- 18:30** **Reception**
Writer's Hall, Waldorf Astoria Shanghai on the Bund (Level 2)
- 19:00** **Conference Dinner**
Wei Jing Ge Restaurant, Waldorf Astoria Shanghai on the Bund

- 08:30** **Registration and Information Desk**
Shanghai Club Ballroom, Waldorf Astoria Shanghai on the Bund (Level 2)
- 09:00** **Introduction to Conference Day 3**
By Thurayya ARAYSSI (WCM-Q, Qatar) and Robert K. CRONE (WCM-Q, Qatar)

Session 3: Innovative Technologies Transforming Education and Healthcare Delivery
Co-hosted by Children's Hospital of Shanghai

- 09:10** GuangJun YU (CHS, China)
- 09:25** Karen BURDICK (GRS Academy, USA)
- 09:40** M. Brownell ANDERSON (NBME, USA)
- 09:55** Shiv GAGLANI (Osmosis, USA)
- 10:10 - 10:30** **Break**
- 10:30** Nadine HACHACH-HARAM (Proximie, UK)
- 10:45** Joshua LANDY (Figure 1, Canada)
- 11:00** **Facilitated Discussion**
by Jing MA (HMS, USA) and Amanda J. PULLEN (SI, USA)
- 11:45 – 14:00** **Showcasing Innovations in Medicine**
Writer's Hall, Waldorf Astoria Shanghai on the Bund (Level 2)
- Lunch**
Diplomats Hall, Waldorf Astoria Shanghai on the Bund (Level 2)

Session 4: Spotlight on Innovations Impacting Healthcare in China
Co-hosted by China Europe International Business School

- 14:00** John CAI (CEIBS, China)
- 14:15** Donglei SONG (BDG, China)
- 14:30** Bo YU (SHMC, China)
- 14:45** Derek HUANG (eDoctor, China)
- 15:00** Zhongnan ZHANG (THU, China)
- 15:15** **Facilitated Discussion**
by John CAI (CEIBS, China)
- 15:45** **Closing Remarks**
Yang KE (PKU, China)
Junhua ZHANG (HHRDC/NHFPC, China)
Javaid I. SHEIKH (WCM-Q, Qatar)
- 16:15** **End of Conference Day 3**

SPEAKERS
AND
OTHER
PROGRAM
PARTICIPANTS

Javaid I. SHEIKH

Professor and Dean

*Weill Cornell Medicine-Qatar
(WCM-Q)*

Dean Javaid SHEIKH is an internationally renowned medical executive, a distinguished clinician-scientist and a widely sought-after thought leader in global academic medicine.

Dean SHEIKH is Chief Academic Officer of the groundbreaking Weill Cornell Medicine in Qatar (WCM-Q), the first medical school based outside the United States to grant a fully US-accredited MD degree. Owing to the medical school's firm commitment to academic rigor and achievement, WCM-Q graduates have distinguished

themselves as worthy peers of the best and brightest of their US and global counterparts and are now part of a new generation of highly qualified physicians and physician-scientists serving the Middle East and North Africa (MENA) region and the wider world.

In addition to playing a central role in shaping the innovative model of undergraduate medical education at WCM-Q, Dean SHEIKH also led efforts to build the college's academic center for translational and clinical research, the first of its kind in the MENA region. Under Dean SHEIKH's leadership, WCM-Q has attracted a critical mass of world-class educators, biomedical scientists and clinicians who are helping Qatar transition from a carbon-based economy to a diversified model founded upon knowledge, education and R&D, in accordance with the goals set out in Qatar National Vision 2030.

To support the ongoing professional development of healthcare practitioners in Qatar, Dean SHEIKH established a Division of Continuing Professional Development at WCM-Q, which recently became the first such program in the MENA region to receive accreditation from the US Accreditation Council for Continuing Medical Education (ACCME). This important step is helping to ensure that healthcare professionals in Qatar reach and maintain the very highest standards of healthcare delivery for their patients. In recent years, Dean SHEIKH has also led the conceptualization and implementation of a series of comprehensive programs to advance health promotion and disease prevention for the general population of Qatar by cultivating healthy behaviors among all members of the community, with a particular focus on school-age children. Dean SHEIKH has also taken a leading role in designing and conducting population-based, longitudinal studies to assess the efficacy of these interventions.

A strong advocate of the utilization of new technologies and teaching methodologies in healthcare education, Dean SHEIKH co-founded 'Innovations in Global Health Professions Education' (IGHPE). Through an open-access journal, social media and a wide variety of digital content, this globally connected platform provides a forum in which educators and healthcare professionals from all over the world can share knowledge of conceptual and technological innovations in health professions education and explore avenues for productive collaboration. In addition to organizing annual international conferences on innovations in health professions education, which bring together some of the world's most dynamic thought leaders, IGHPE also convenes regional workshops to promote the dissemination of new ideas and concepts.

Prior to joining WCM-Q in 2007, Dean SHEIKH built a distinguished career as Professor of Psychiatry and Behavioral Sciences, Associate Dean and Chief of the Medical Staff and Chairman of the Board of the Palo Alto Institute for Research and Education at Stanford University School of Medicine and the Veterans Administration Palo Alto Health Care.

System in California. At Stanford, Dr. SHEIKH published the first studies exploring the impact of aging on anxiety disorders, while delineating differential sleep architecture in various anxiety disorders. His work was funded both by the National Institutes of Health and private sources and resulted in more than 150 scientific publications.

Victor DZAU

President

*US National Academy
of Medicine (NAM)*

Victor J. DZAU, MD, is President of the US National Academy of Medicine. He is an internationally acclaimed leader and scientist whose work has improved healthcare in the United States and globally.

Under his direction, the National Academy of Medicine advances research and improves health by providing objective, evidence-based guidance on critical issues. His foresight in translation of research into diagnostic methods, medicines, and creative

solutions for human health issues is a great asset to the Academies and to the public at large. His own research laid the foundation for development of angiotensin-converting-enzyme (ACE) inhibitors, used globally to treat high blood pressure and congestive heart failure.

Prior to becoming President of the National Academy of Medicine, Dr. DZAU served as Chancellor for Health Affairs and President & CEO of Duke University Medical Center. He has received numerous awards including the Max Delbruck Medal from Humboldt University Charité and Max Planck Institute, the Gustav Nylin Medal from the Swedish Royal College of Medicine, the Polzer Prize from the European Academy of Sciences & Arts, the Ellis Island Medal of Honor, and the Distinguished Scientist Award of the American Heart Association.

Yang KE

Executive Vice President

Peking University (PKU)

Professor Yang KE is Executive Vice President of Peking University, a distinguished cancer researcher and a foreign associate of the National Academy of Medicine (Institute of Medicine).

Besides taking charge of the overall administration of Peking University Health Science Center (PUK-HSC) between 2004-2016 and devoting herself to the study of upper digestive tract malignant tumors, Professor KE is also a member or leader of many academic societies, boards and committees for cancer research, health

professions education and health system reform, both at home and abroad. She is also a member of the Editorial Board of Innovations in Global Health Professions Education (IGHPE).

Professor KE is a passionate champion of medical education reform, taking personal charge of the development of a new medical curriculum for PKU-HSC. Furthermore, she has lent her support and vision to promoting evidence-based clinical research, multidisciplinary cooperation, and internationalization in both research and education at PKU-HSC. She also plays an important role in motivating university-affiliated hospitals to actively participate in health system reform.

Thurayya ARAYSSI

Associate Professor of
Medicine and Senior Associate
Dean for Medical Education
and Continuing Professional
Development

*Weill Cornell Medicine-Qatar
(WCM-Q)*

Dr. Thurayya ARAYSSI is Associate Professor of Medicine and Senior Associate Dean for Medical Education and Continuing Professional Development at Weill Cornell Medicine-Qatar, a part of Weill Cornell

Medicine in New York. Dr. ARAYSSI has authored or co-authored more than 100 peer-reviewed articles, papers, abstracts and book chapters and has presented multiple seminars and lectures at regional and international conferences.

Dr. ARAYSSI's current research interests focus on rheumatoid arthritis, for which she has received funding as the Principal Investigator, and Behcet's disease. She has received several teaching awards and honors including induction to the Alpha Omega Alpha Honor Medical Society and being highlighted as a woman leader in Residency Education by the Association of Program Directors in Internal Medicine (APDIM).

Robert K. CRONE

Professor and Vice Dean for
Clinical and Faculty Affairs

*Weill Cornell Medicine-Qatar
(WCM-Q)*

Dr. CRONE graduated from Albany Medical College and completed post-graduate training in pediatrics and anesthesiology at the Massachusetts General Hospital.

During his academic career he has served as founding Director of the ICU at Boston Children's Hospital, Professor & Chair of Anesthesia and Critical Care at Seattle Children's Hospital, as Medical Director at

Project HOPE, CEO of Harvard Medical International and Dean for International Programs at Harvard Medical School. Dr. CRONE has worked with the healthcare regulatory, assessment and accreditation communities in the US and internationally.

He has served as a consultant or as a member of the board of numerous US and international healthcare and educational institutions. In Qatar, as Vice Dean of Weill Cornell Medicine-Qatar, Dr. CRONE contributes to the development of the rapidly growing healthcare and medical education sector.

Lois Margaret NORA

President and
Chief Executive Officer

*American Board of Medical
Specialties (ABMS)*

Lois Margaret NORA, MD, JD, MBA is President and CEO of the American Board of Medical Specialties (ABMS), a not-for-profit organization that helps ensure high quality healthcare for patients, families and communities.

ABMS' 24 medical specialty boards develop and implement educational and professional standards for physician board certification.

A voluntary, quality credential board certification by an ABMS Member Board indicates physician specialists' professional proficiency and commitment to lifelong learning and assessment.

Prior to leading ABMS, Dr. NORA served as President and Dean of Medicine at Northeast Ohio Medical University, and Interim President and Dean of The Commonwealth Medical College.

She is board certified in neurology by the American Board of Psychiatry and Neurology, and is participating in continuing certification.

Ducksun AHN

Professor

*Korea University Medical College
(KUMC)*

Vice-President

*World Federation for Medical
Education (WFME)*

Dr. Ducksun AHN graduated from Korea University Medical College in 1978 and received clinical training in plastic surgery at the University of Toronto.

Upon his return to Korea, he created the Medical Education Department at Korea

University Medical College. He also holds a Master's degree in bioethics from the Catholic University of Leuven, Belgium. As a former Education Commission for Foreign Medical Graduates (ECFMG) fellow for international medical education at the University of California in Los Angeles (UCLA), his main interest is in health professional education and regulation. He was President of the Korean Society of Medical Education, the Association for Medical Education in the Western Pacific Region (AMEWPR), and the Korean Institute of Medical Education and Evaluation, the accrediting body of Korea. Currently he is Vice-President of the World Federation for Medical Education, Professor of Medical Humanities and Professor of the Department of Plastic Surgery.

M. Brownell ANDERSON

Vice President of International
Programs

*National Board of Medical
Examiners (NBME)*

M. Brownell ANDERSON (Brownie) is Vice President, International Programs at the National Board of Medical Examiners, USA.

In this capacity, she works with medical schools around the world to better align curriculum outcomes with student assessments and with organizations

to improve certification of healthcare professionals and foster a “culture of assessment” internationally.

Brownie is currently working with medical schools and government organizations in Brazil, Kazakhstan, and Vietnam. She is working in China to create a certification program for a new health professional: a health coach. She is also working with several medical schools and hospitals in Europe. Brownie is the editor of *Really Good Stuff* a bi-annual collection of reports of medical education innovations, published in the journal *Medical Education*, and she serves on the editorial board of *Academic Medicine*.

Brownie was on the faculty of the Arabian Gulf University for several years and has worked with the Foundation for Advancement of International Medical Education and Research (FAIMER).

Karen BURDICK

Senior Director of Curriculum Development

GRS Academy

Karen is an occupational therapist, an accomplished organizational development and learning professional and the Senior Director of Curriculum Development for GRS Academy, the training arm of Genesis Rehabilitation Services. She brings expertise in rehabilitation care in acute, post-acute and home care settings, with specialization in pediatric, developmental disabilities and brain injury.

Karen has managed the corporate health care education division for the largest non-profit health system in the US and taught at the university level. Since joining GRS Academy, Karen's focus has been on creating curriculum systems and programs to support the academy's mission to "...provide healthcare professionals and employers across the globe with the knowledge and skills to meet emerging healthcare needs and improve the value, quality, and availability of non-acute healthcare globally."

John CAI

Director of the Center for
Healthcare Management
and Policy and Adjunct
Professor of Economics

*China Europe International
Business School (CEIBS)*

Prof. John (Jiangnan) CAI is the Director of the Center for Healthcare Management and Policy and Adjunct Professor of Economics at China Europe International Business School (CEIBS).

He has been involved in teaching, research and consulting work at universities, consulting firms and government in the area of healthcare over twenty years in both the US and China. He has published extensively in the areas of health economics and health policy. He participated in the design, implement and evaluation of the first comprehensive healthcare reform plan (Massachusetts) in the US and was also actively involved in design of the new healthcare reform plan in China.

Prof. CAI was the cofounder of the Institute of Economic Development and Business School at the East China University of Science and Technology, Shanghai, and the first Chair of Department of Public Economics at Fudan University. He has received the 1990 Sun Yie-fang National Economic Science Prizes-Best Paper Award, the 2002 Most Outstanding Abstract Award by AcademyHealth in the US, and the 2009 Excellent Paper Award from the Shanghai Social Science Annual Conference. He received his PhD in Public Policy from the Heller School for Social Policy and Management at Brandeis University, Waltham, Massachusetts in 1997, his MA in Economics at Fudan University in 1984 and his BA in Economics at East China Normal University in 1982.

Chunhua CHI

Professor of Respiratory
Medicine and Director of
General Practice Department

*Peking University Health Sciences
Center (PUHSC)*

Director of Health
Management Center

*Peking University First Hospital
(PKUFH)*

Health Sciences Center (PUHSC), Director of the Health Management Center of Peking University First Hospital (PKUFH) and Director of General Practice Teaching and Research Office of PUHSC.

Dr. CHI holds many academic positions: she is a Standing Committee Member of the General Practice Branch of the Chinese Medical Association, and of the General Practitioners Branch of the Chinese Medical Doctor Association, as well as a Committee Member of the Allergy Branch of the Chinese Medical Association. She is also Vice President of the Primary Health Branch of the China Health Care International Exchange Association, Executive Chairman of the China Primary Respiratory Disease Prevention and Control Alliance, and Deputy Director-General & Head of the Foreign Exchange Group of the General Practitioners Education and Training Expert Committee of the Chinese Medical Doctor Association.

Susan DAY

Senior Vice President of Medical Affairs

*Accreditation Council for Graduate
Medical Education International
(ACGME-I)*

After a thirty-year career centered on the clinical practice of pediatric ophthalmology and medical education, Dr. DAY joined the Accreditation Council for Graduate Medical Education International (ACGME-I) team where she serves as Senior Vice President of Medical Affairs.

Her interest in graduate medical education includes 20 years as Program Director and five years as her institution's Designated Institutional Official with oversight of all residency programs.

Leadership positions have included serving as the Chair of the Ophthalmology Review Committee, Chair of the ACGME Board, as well as President of the national membership, academic, and honor societies for her specialty. Her focus is on the development of medical education systems which assure competence of its graduates to practice independently upon completion of training. Internationally, this focus has been applied in multiple places, including Singapore, Lebanon and Haiti, reflecting the need to honor both rigor of educational content and inherent flexibility as required by country needs, resources, and cultures.

Liping DUAN

Professor of Medicine
and Vice President

*Peking University Health Science
Center (PUHSC)*

Associate Director of
Gastroenterology Department

*Peking University Third Hospital
(PKUTH)*

Dr. Liping DUAN received her MB (1986) and MD (1991) at Beijing Medical University. From 1992 to 1995 she worked at the Division of Gastroenterology of Goethe University

Germany as a research fellow of the Alexander von Humboldt Foundation. She was the senior visiting scholar at the Division of Gastroenterology at Beth Israel Deaconess Medical Center (BIDMC) of Harvard Medical School from 2001 to 2002. Now, she is the Member of the Disciplinary Assessment Panel of the Academic Degree Committee of the State Council; a member of the Academic Degree Committee of Beijing; Standing Director of the Chinese Society of Academic Degrees and Graduate Education (CSADGE); Deputy Chief and Secretary General of the Medical and Pharmaceutical Division of the CSADGE; Secretary General of the National Steering Committee on Medical Degree Education; and a committee member of the Chinese Society of Gastroenterology.

Shiv GAGLANI

Cofounder
and Chief Executive Officer

Osmosis

Shiv GAGLANI is the cofounder and chief executive officer of Osmosis, which makes a popular web- and mobile-learning platform (www.osmosis.org) used by more than 100,000 medical and allied health professions students and more than 25 medical schools.

Shiv's primary passion is developing innovative and scalable solutions in the fields of healthcare and education. To this end he curated the Smartphone

Physical, which debuted at TEDMED (www.quantifiedcare.com), and the Patient Promise (www.thepatientpromise.org), a movement to improve clinician-patient relationship through partnership in pursuing healthy lifestyle behaviors. Shiv is also an avid writer who has written two educational books, *Success with Science* (www.successwithscience.org) and *Standing out on the SAT & ACT*.

After graduating magna cum laude from Harvard College in 2010 with degrees in engineering and health policy, Shiv began his MD/MBA degree at the Johns Hopkins School of Medicine and Harvard Business School, from which he graduated in May 2016.

Yuanzhi GUAN

Professor of Medical Microbiology and Immunology and Director of the Center for Medical Education Research and Development

Peking Union Medical College (PUMC)

Yuanzhi GUAN, Professor of Medical Microbiology and Immunology at the Department of Microbiology, Peking Union Medical College (PUMC).

Formerly the Dean of Medical Education at Peking Union Medical College (PUMC) from 2002 to 2015, Yuanzhi GUAN is currently Director of the Center for Medical Education Research and Development at PUMC. As a senior member of the faculty of the school he has published more than 30 research papers on microbiology and medical education and has also been employed by the National Ministry of Education as an expert on accreditation in medical education. He also provides service to the medical education committee of the China Association of Medicine and the Beijing Association of Medical Education.

Nadine HACHACH-HARAM

Cofounder
and Chief Medical Office

Proximie

Dr. Nadine H HARAM is a surgeon, lecturer and clinical entrepreneur. She gained a BSc with distinction from University College London, receiving the Jack Drummond and Jackson Lewis prizes for top marks in the Faculty and Department of Biochemistry and Molecular Biology. She subsequently enrolled in the accelerated graduate entry program at St. Bartholomew's Hospital and the Royal

London Hospital, from where she graduated in 2009 with distinction, earning the Harvey Minasian Prize for academic excellence in the process. Since then she has been appointed as an NHS Clinical Entrepreneur, council member of BAPRAS (British Association of Plastic Reconstructive and Aesthetic Surgeons) Innovation UK, a UCL Honorary Clinical Lecturer, SAC Plastic Surgery Simulation task force, President of BFIRST (British Foundation for International Reconstructive Surgery) trainee members, and council member of the Royal Society of Medicine Plastic surgery section.

Nadine drew on her passion for innovation, education and global surgery and co-founded Proximie in 2014, an augmented reality platform that allows doctors to virtually transport themselves into any operating room to guide, teach, train and support other surgeons and medical experts independent of any specific hardware.

When she isn't working Nadine spends her time with her husband and three children in London.

Gengsheng HE

Assistant Dean of the School
of Public Health

Fudan University (SHMC)

Dr. Gengsheng HE is Assistant Dean of the School of Public Health at Fudan University. She is also a Coordinator of Fudan Global Health Institute. Dr. HE has participated in several global health training projects such as those coordinated by the National Institutes of Health/Fogarty International Center, the China Medical Board (CMB) and the UK Department for International Development (DFID).

She is Professor of Nutrition and Food Science in the Department of Nutrition and Food Hygiene in the School of Public Health at Fudan University. Dr. HE has a PhD in Endocrinology and Nutrition from Aarhus University, Denmark. Currently, her research work mainly focuses on nutrition-related chronic diseases such as obesity, metabolic syndrome and type 2 diabetes.

Therese HESKETH

Professor of Global Health

University College London (UCL)

**Director of Centre for
Global Health**

Zhejiang University (ZJU)

Therese HESKETH is Professor of Global Health at University College London and is the Director of the Centre for Global Health at Zhejiang University.

She trained in pediatrics and public health in the UK, and has worked as a clinician, educator and manager in several countries, including China, Indonesia, Myanmar,

India, the Philippines, Laos, Cambodia, Tanzania and Uganda. In recent years her focus has been on China, where she has specialized in conducting large epidemiological studies, and interventions across a range of population health topics. She is especially interested in the use of new technologies for research and behavior change. Her ongoing research in China includes interventions to improve the recruitment and retention of rural health workers, studies on violence against health workers, interventions to improve psychosocial outcomes for left-behind children, impacts of the universal two-child policy, and interventions to reduce antibiotic use and antimicrobial resistance.

Yan HU

Dean of the School of Nursing
and Director of Fudan
University Center of
Evidence-based Nursing

Fudan University (SHMC)

Acting Chair

*CMB China Nursing Network
(CCNN)*

Professor Yan HU is Dean of the School of Nursing at Fudan University, and Director of the Fudan University Center of Evidence-based Nursing, a Collaborating Center of the

Joanna Briggs Institute of the University of South Adelaide, Australia. She is also acting chair of the CMB China Nursing Network (CCNN), which is the collaborating network funded by the China Medical Board (CMB). She acts as Editorial Board Member of *International Journal of Nursing Practice*, *Journal of Advanced Nursing (JAN)*, and a number of other peer-reviewed nursing journals. Her current research foci are on supportive care and quality of life of breast for cancer survivors, and symptom management for AIDS patients using evidence-based nursing approaches. She has research funding from the National Natural Science Foundation of China (NSFC), China Medical Board (CMB) and Shanghai Health Bureau et al, and in the past five years she has had almost 100 publications in leading Chinese nursing journals. She was also chief-editor of several core nursing textbooks for both undergraduate and postgraduate programs, including *Practical Oncology Nursing*, *Practical AIDS Care*, and *Evidence-based Nursing*. In recent years, Professor Yan HU and her research team have been actively promoting evidence-based nursing practices in China, leading the establishment of the first center of evidence-based nursing in China and the development of a wide variety of evidence-based nursing resources. Currently, her team is working on the development of nursing practice guidelines for participation in global health projects and the treatment of patients with AIDS.

Derek HUANG

Founder and CEO

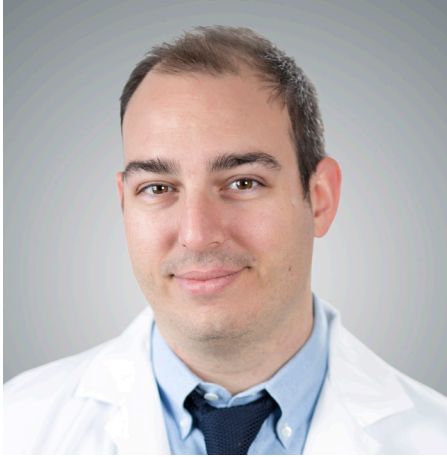

*eDoctor Healthcare
Communications (eDoctor)*

Mr. Derek (Ying-feng) HUANG took an Executive Master of Business Administration degree from China Europe International Business School (CEIBS) in 2014, and a Bachelor's degree in Clinical Medicine from Shanghai Medical University (now Shanghai Medical College of Fudan University) in 1998.

eDoctor Healthcare Communications, founded in 2004 by Mr. HUANG, dedicates itself to providing consulting and digital marketing service in the healthcare industry.

It is the industry-leading service provider of remote conference, surgery-live broadcasting and patient assistance programs (PAP). It also leads the industry in innovations in virtual reality (VR) and augmented reality (AR).

eDoctor Healthcare Communications, which has its headquarters in Shanghai and one office in Beijing, has nearly 300 full-time employees.

Joshua LANDY

Co-founder
and Chief Medical Officer

Figure 1

Dr. Joshua LANDY is the Co-founder and Chief Medical Officer of Figure 1, a medical case-sharing platform connecting more than one million healthcare professionals around the world.

Dr. LANDY is a practicing internist and critical care medicine specialist who completed his MD at the University of Western Ontario, his internal medicine residency at the University of Alberta, and his critical care fellowship at the University of Toronto. In 2012, Dr. LANDY

was invited to become a visiting scholar at Stanford University, where he researched online and multimedia-oriented approaches to health education. Dr. LANDY has been invited to share his unique perspectives on healthcare by prominent organizations including Stanford Medicine X, the Royal College of Physicians and Surgeons of Canada, and the World Bank, and has been interviewed by major press including the Financial Times, Wall Street Journal, and Fast Company.

Chak Sing LAU

Professor and Chair of Rheumatology and Clinical Immunology, Director of the Institute of Medical and Health Sciences Education, and Associate Dean of LKS Faculty of Medicine

University of Hong Kong (HKU)

President

Hong Kong Academy of Medicine (HKAM)

Professor Chak Sing LAU is Daniel CK Yu Chair Professor in Rheumatology and Clinical Immunology, Director of the Institute of Medical and Health Sciences Education, and Associate Dean (Teaching & Learning) of the LKS Faculty of Medicine at the University of Hong Kong (HKU). He is also President of the Hong Kong Academy of Medicine.

LAU graduated with his MBChB from the University of Dundee, Scotland, UK in 1985 and completed training in rheumatology at the Ninewells Hospital and Medical School in Dundee in 1992. Subsequently, he served for 15 years at HKU, latterly as Professor and Assistant Dean in Medicine. In 2007, he took up the position of Chair of Rheumatology at the University of Dundee. He returned to HKU in early 2010 and has since taken up his various current positions.

Mengfeng LI

Professor and Vice President

Sun Yat-Sen University (SYSU)

Mengfeng LI is Cheong-Kung Professor of Medicine and Microbiology. He is University Vice President, Dean of the Faculty of Health Sciences and Dean of Zhongshan School of Medicine at Sun Yat-Sen University (SYSU).

His academic interest has been focused on molecular mechanisms underlying the pathogenic inflammation involved in cancer and severe viral infections, with over 100 international publications in the field. He is a leader in the institutional administration of medical education and academic affairs in SYSU.

Dr. LI is now a member of the State Council Degree Committee Discipline Group and a member of the National Accreditation Committee for Clinical Medicine Specialty. Before joining SYSU, Dr. LI served as a faculty member at the University of Pittsburgh School of Medicine for thirteen years until 2006.

Yuanli LIU

Dean of School of Public Health

*Peking Union Medical College
(PUMC-SPH)*

Dr. Yuanli LIU is a Distinguished Expert of the Thousand Talents Program, President of the Chinese Academy of Medical Sciences, Dean of the School of Public Health at Peking Union Medical College, Professor of Health Policy and Management, and Doctoral Supervisor.

He leads a modern and international institute focusing on high-quality scientific research and training of future leaders. From 1994 to 2013, Dr. Yuanli LIU engaged in scientific research and teaching of international health policy and management at Harvard University. He was one of the founders of health systems science and served as a doctoral supervisor at Harvard University. He was appointed as the Director of the China Action Plan of the Harvard School of Public Health in 2005 to lead academic exchange and cooperation between Harvard University and China in the fields of healthcare and social development.

In addition, Dr. Yuanli LIU is also a member of the State Council Medical Reform Advisory Committee, a member of the Expert Group of the Strategic Plan for Healthy China 2020, the head of the Strategic Planning Task Team of the Healthy Beijing 2020 Initiative, consultant of the Ninth Global Health Promotion Conference, chief member of the Preventive Medicine and Public Health Committee of the Chinese Academy of Medical Sciences, member of the National Old-Age Care Committee of the National Ministry of Civil Affairs, member of the Traditional Chinese Medicine Reform and Development Advisory Committee of the State Administration of Traditional Chinese Medicine, member of the drafting team of the Basic Medical and Health Law, and Chairman of the medical chapter of the Western Returned Scholars Association.

Ching-Hui LOH

Director

Department of Health Care Management, Veterans Affairs Council, ROC (VAC)

Joint Appointment Professor

National Defense Medical Center (NDMC)

Taiwan, since 2008. He received his MD degree from the National Defense Medical Center and his PhD from the Department of Health System Management, New Orleans, LA, USA.

Professor LOH is Director of Department of Health Care Management, Veterans Affairs Council, ROC, a position he assumed in 2016, and he has served as Professor at the National Defense Medical Center, Taipei,

Professor LOH holds qualifications from the National Medical Board of Taiwan, the Board of Taiwan Association of Gerontology and Geriatrics, the Board of Taiwan Association of Gerontology and Geriatrics, the Board of Taiwan Association of Internal Medicine, and the Board of Taiwan Association of Gastroenterology. He previously held the position of Joint Appointment Professor at Tulane University, New Orleans, LA, USA, from 1998 to 2002.

Jing MA

Associate Professor of
Medicine, Channing Division of
Network Medicine, Department
of Medicine, Brigham &
Women's Hospital

Harvard Medical School (HMS)

Dr. MA received her MD and MPH from Wuhan Tongji Medical University (now the Medical School of Huazhong University of Science and Technology). After receiving her PhD from the University of Minnesota, she joined Harvard Medical School and Brigham & Women's Hospital as a post-doc

before becoming a member of the faculty, a position she still holds. Her research interests are focused on biomarkers and genetic markers of cancer etiology, risk prediction, prevention and prognosis. She is principal investigator of multiple NIH and DOD grants and has published more than 200 peer-reviewed papers.

Dr. MA is a visiting professor at the Peking Union Hospital and Shanghai Huashan Hospital. She has been co-leading the Harvard Leadership Development Programs for Chinese healthcare policy makers, hospital CEOs, and Food & Drug Safety administrators. Over the past two decades, she has trained many students, scholars and doctors from China, many of whom now hold senior leadership positions in China. During 2016 and 2017, Dr. MA collaborated with Peking Union Medical College School of Public Health on two National Surveys of over 40,000 medical professionals among 136 tertiary hospitals across 31 provinces in China. Using this rich data, she and colleagues are studying Chinese doctors' and nurses' health status, their working environment, salary levels and job satisfaction.

Dr. MA also serves as the President of the US-China Health Summit, an NGO established in Massachusetts, United States, which is dedicated to advancing global health by promoting exchange of knowledge, ideas and experiences among the healthcare leaders of China, the US and other countries. Inaugurated in 2011 at Harvard University and subsequently hosted alternately in the US and China, the annual summit has been an important part of the US-China Strategic and Economic Dialogue (S&ED) and the US-China Consultation on People-To-People Exchange (CPE) outcome.

Ivy NG

Group Chief Executive Officer

*Singapore Health Services Pte Ltd
(SingHealth)*

Professor Ivy NG is Group Chief Executive Officer of Singapore Health Services Pte Ltd (SingHealth).

Prior to her appointment as SingHealth's Chief, she was the Chief Executive Officer of KK Women's & Children's Hospital (KKH) from 2004 to 2012, and Deputy Group Chief Executive Officer of SingHealth from 2008 to 2012.

SingHealth is Singapore's largest healthcare group and comprises Singapore General Hospital, KK Women's and Children's Hospital, Sengkang Health, five National Specialty Centres (Cancer, Eye, Neurosciences, Dental and Heart), Bright Vision Community Hospital and nine primary health polyclinics.

She was conferred the Singapore Human Resource Institute Leading CEO Award 2008, the International Management Action Award 2010, the Public Administration Medal (Gold) 2011 and Her World Woman of the Year 2012. She is Chair of the Singapore National Eye Centre (SNEC) Health Endowment Fund and SNEC Health Research Endowment Fund and member of the boards of SingHealth Foundation, Eastern Health Alliance, Singapore Management University, the National Medical Research Council (NMRC), Biomedical Research Council (BMRC) and the Health Biomedical Sciences (HBMS) Committee.

Zhigang PAN

Director of General
Medicine Department

Zhongshan Hospital (SHMC)

Dr. Zhigang PAN is Director of the General Medicine Department at Zhongshan Hospital, affiliated to Fudan University, Chief Physician and Doctoral Supervisor.

Dr. PAN is Vice Chair of the General Medicine Branch of Shanghai Medical Association, a member of the General Medicine Branch of the Standing Committee of the Chinese Medical Association, Associate Director and Deputy Chair of the General Medicine Branch of the Cross-Strait Medical Exchange

Association, and a member of the Editorial Board of *Journal of Asia Pacific Family Physician* etc. He has published 30 papers in the last five years, including 14 as the first or correspondent author, and seven SCI papers. Dr. PAN has chaired or participated in the compilation of several text books.

Amanda J. PULLEN

Senior Vice President

Strategy Implemented, Inc. (SI)

At Strategy Implemented (SI), Amanda focuses on strategies for international collaboration aimed to allow organizations to share knowledge and expertise, to improve patient care. Prior to SI, Amanda worked as a Director at Huron Consulting Group and held several positions at Harvard Medical School including Executive Director of the Giovanni Armenise-Harvard Foundation for Medical Research, and Vice President of international marketing and communications for Harvard Medical International. She also served as the Executive Director of the European Advisory

Board for Project HOPE, and had roles in research, marketing and communications with Glaxo Pharmaceuticals, where she launched the first UK team in the pharmaceutical industry to be dedicated to building relationships with the leadership of the National Health Service. Amanda started her career pursuing research in cardiovascular physiology at St George's Hospital in London, where she earned a PhD prior to being awarded a postdoctoral fellowship in digital subtraction angiography with the IBM Research Centre, UK.

Donglei SONG

Doctor and Founder

Brain Doctor Group (BDG)

Dr. Donglei SONG is a former Chief Physician of the Neurosurgery Department in Huashan Hospital affiliated to Fudan University. He is also a professor and PhD tutor. During his time at Huashan Hospital he was in charge of the cerebrovascular disease medical team. He has also served as Dean of Shanghai Deji Hospital and Director of the Cerebrovascular Disease Center. Dr. SONG is the founder of the 'Brain Doctor Group'.

To date, Dr. SONG has completed more than 15,000 cases of brain and spinal surgery and he is one of the few specialists who

are proficient in endovascular therapy and microsurgery. He is not only the first Chinese specialist licensed to perform the Onyx treatment for intracranial aneurysms, but also one of China's first trainers of the Pipeline embolization device treatment. He has been invited as a representative of China to give presentations and lectures in many international academic conferences. He has published more than 100 papers in key national journals and more than 30 articles in SCI. Dr. SONG has won more than ten municipal science and technology progress awards and in 2014 was the recipient of the Qi Pu Award for innovation in the Chinese healthcare sector.

Dr. SONG is now the Deputy Director of the Cardiovascular and Cerebrovascular Diseases of the Gerontological Society of China, and Professional Committee Member and Executive Director of the Chinese Medical Association branch. He is the Vice Chairman of the Professional Committee, Vice Chairman of the Chinese Medical Association Expert Committee of Neurosurgery Doctor Association and the China Physician Association Neuro Interventional Diagnosis and Treatment Partnership Committee Deputy Secretary-General. He is in the committee of China Society of the stroke intervention branch. He is also the expert of The State Planning Commission Guardian "stroke prevention project".

He also serves as Association Executive Director of non-public medical institutions, Vice President of the Medical Association of Shanghai social institutions.

Dong XU

Executive Deputy Director
of Sun Yat-sen Global Health
Institute (SGHI)

Sun Yat-Sen University

Dong (Roman) XU is the executive deputy director of the Sun Yat-sen Global Health Institute (SGHI) of the Sun Yat-sen University, Guangdong, PRC and a research professor in global health and health systems.

His research focuses on developing and evaluating health system innovations in the global health context, particularly those related to primary care delivery,

payment systems, health quality assessment and mHealth (mobile health). Roman published in leading journals such as *The Lancet* and *Implementation Science*. Before his SGHI work, he held leadership positions at the China Medical Board (CMB), Harvard Medical School's Harvard Medical International, Medtronic Inc., and the Chinese Medical Association. Roman obtained his master's degree in public policy (health policy) from Harvard University in 2004 and his bachelor's degree in medical English from West China University of Medical Sciences in 1996. He is currently a PhD candidate at the University of Washington on the Global Health (implementation science) program.

Jianguang XU

President

Shanghai University of Traditional Chinese Medicine (SHUTCM)

President

Shanghai Academy of Traditional Chinese Medicine (SATCM)

Vice Chair

China Medical Association (CMA)

Dr. Jianguang XU, MD, PhD is President of Shanghai University of Traditional Chinese Medicine, Chair of Shanghai Medical Association and Vice Chair of China Medical Association. Dr. XU also holds the position of President of Shanghai Academy of Traditional Chinese Medicine. He was formerly President of Huashan Hospital (affiliated to Fudan University), and also previously held directorships of Shanghai Municipal Health Bureau, Shanghai Municipal Food and Drug Administration, and Shanghai Municipal Commission of Health and Family Planning.

Zuoqin YAN

Vice President

Zhongshan Hospital of Fudan University (SHMC)

Director of the Medical Education Supervisory Committee

Shanghai Medical College (SHMC)

Prof. Zuoqin YAN is Vice President of Zhongshan Hospital at Fudan University and is responsible for Graduate and Postgraduate Medical Training. He is also Director of the Medical Education

Supervisory Committee of Shanghai Medical College. Prof. YAN is Member of the Standing Committee of the Chinese Trauma Association, Chairman of the Shanghai Trauma Association, Member of Shanghai Orthopedic Association and Deputy Editor-in-chief of the text books *Orthopedic Surgery and Practical Surgery*.

Bo YU

Professor of Surgery and President

*Fudan University Pudong
Hospital (SHMC)*

Chief of Vascular Surger

*Fudan University Huashan
Hospital (SHMC)*

Dr. YU received his doctoral degree from Fudan University Shanghai Medical College, and his postdoctoral scholarship from University of California at San Francisco (UCSF), USA. He also received hospital

executive training at Harvard University. Dr. YU is academically specialized in vascular surgery, and has been a member of the executive team of the Chinese Society of Vascular Surgery and a recipient of a variety awards. In addition, as President of Fudan University Pudong Hospital, he is also an expert in hospital management and healthcare innovation, and has extensive experience of researching and executing innovations in healthcare policy and reform. He is now Vice President of Shanghai Hospital Association.

GuangJun YU

President

*Children's Hospital
of Shanghai (CHS)*

Dr. Guangjun YU holds a master's degree in pediatric medicine and a PhD in social medicine and health management. He currently serves as the President of Children's Hospital of Shanghai and Deputy Director of Shanghai Health Information Engineering Technology Research Center.

He is also Standing Committee Member of the Chinese Hospital Association Information Committee, Vice Chairman of Shanghai Preventive Medicine Association, Chairman

of the Internet Branch of Shanghai Hospital-link System, Vice President of the Shanghai Pediatricians Association and Vice President of the Shanghai Women and Children's Research Association. In 2011, he was appointed visiting scholar at Harvard School of Public Health. Since 2006 he has been responsible for the construction of the regional health information system (hospital clinical information sharing system), has established CMR connectivity between hospitals in Shanghai, and has won second prize in the National Technology Progress awards. Under his leadership, in 2016 the Children's Hospital of Shanghai became the first children's hospital in China to pass HIMSS 6.

Junhua ZHANG

Deputy Director-General

*Health Human Resources
Development Center, National
Health and Family Planning
Commission (HHRDC/NHFPC)*

Dr. ZHANG graduated from Tongji Medical College, Huazhong University of Science and Technology in June 1989.

He was awarded a Master's degree in Public Health by the University of the Philippines Manila in July 1997 and a Doctor of Philosophy degree by the Faculty of Medicine at the University of Sydney in April 2005.

Dr. ZHANG has held appointments at the Chinese Center for Disease Prevention and Control, and the Department of Endemic Disease Control of the Ministry of Health, where he was in charge of the World Bank Loan projects. Since July 2005, Dr. ZHANG has been working at HHRDC/NHFPC, where he started as the Assistant Director-General, before taking up the position of Deputy Director-General. Within HHRDC/NHFPC Dr. ZHANG has been responsible for the supervision of the Research Division, the International Cooperation Division, the Information Technology Division, the Health Professional Development Division, and many other areas of operation.

Zhongnan ZHANG

Member of Academic Advisory Committee

*Research Center for Healthcare
Management, School of
Economics and Management,
Tsinghua University (THU)*

Prof. Zhongnan ZHANG is a hospital management expert and orthopedic surgeon, and the only Asian physician to be awarded the Richard O' Connor Research Award by the International Arthroscopy Association.

He has served professor, department chairman, doctoral tutor, consultant, or president at more than 25 hospitals and universities in China and the USA since 1991, and is noted for having established the first hospital management company in China. Prof. ZHANG and his team have provided assistance with management, consultancy, professional advice and teaching to approximately one hundred hospitals across China.
